

The hatched orb
weaver has no
fangs.
It crushes
its prey
to death
with
loop after
loop of
silk, wrapping
it
tighter
and
tighter
until it
basically
implodes.

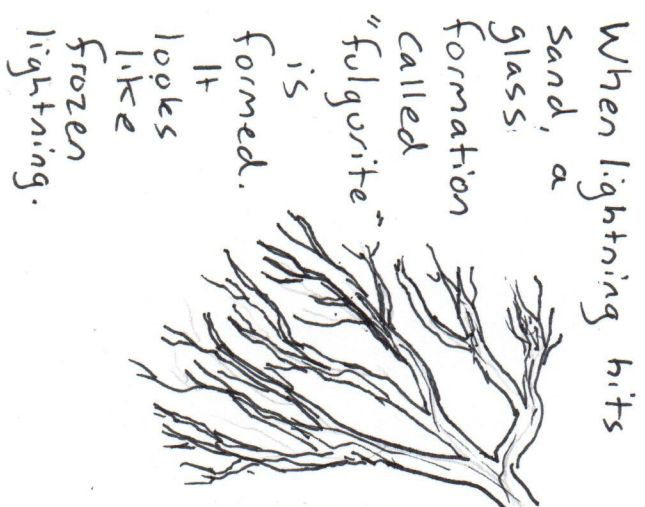

Pineapple eats you
back.

It contains an enzyme
called bromelain that
breaks down meat proteins,
which is why your mouth
tingles.

A horse can
actually generate
up to 15 horsepower.

A trained
human
can even
do up
to
2.5.

When lightning hits
sand, a
glass
formation
called
"fulgurite"
is
formed.
It
looks
like
frozen
lightning.

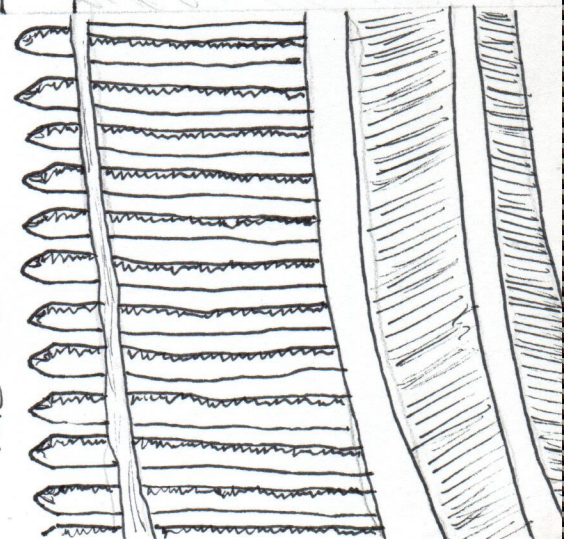

onto frosted glass
lets you see
right through it.

Sticking scotch tape

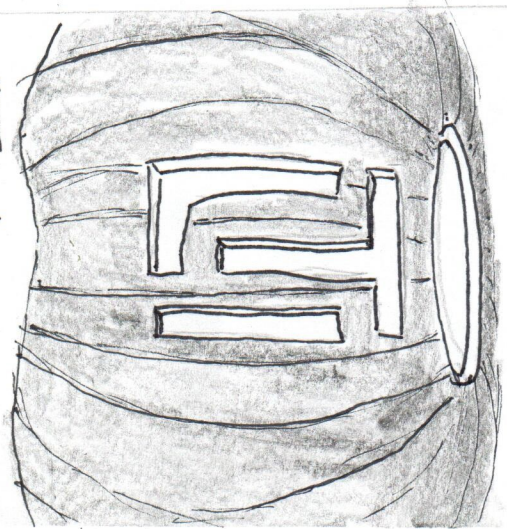

"Nothing will ever
be attempted
if all possible
objections must
first be
overcome."

- Samuel
Johnson

Thomas Vase, 10/5/2021

The wall for which
Wall St. is named
was designed to
keep out the
English settlers to
the north.

"Today,
I Learned"
